

「King County House Prices」

Hi there! I'm a software engineer based in NY and working for the UN, and an aspiring **data scientist** at Flatiron Academy

Barto Molina, Flatiron DS, April 2019 cohort

| the project

sales in King County Sept '14 – Oct '15

21,597 sales

3% of the total number of houses in KC

top factors influencing the price and best locations

House Price

price predictors

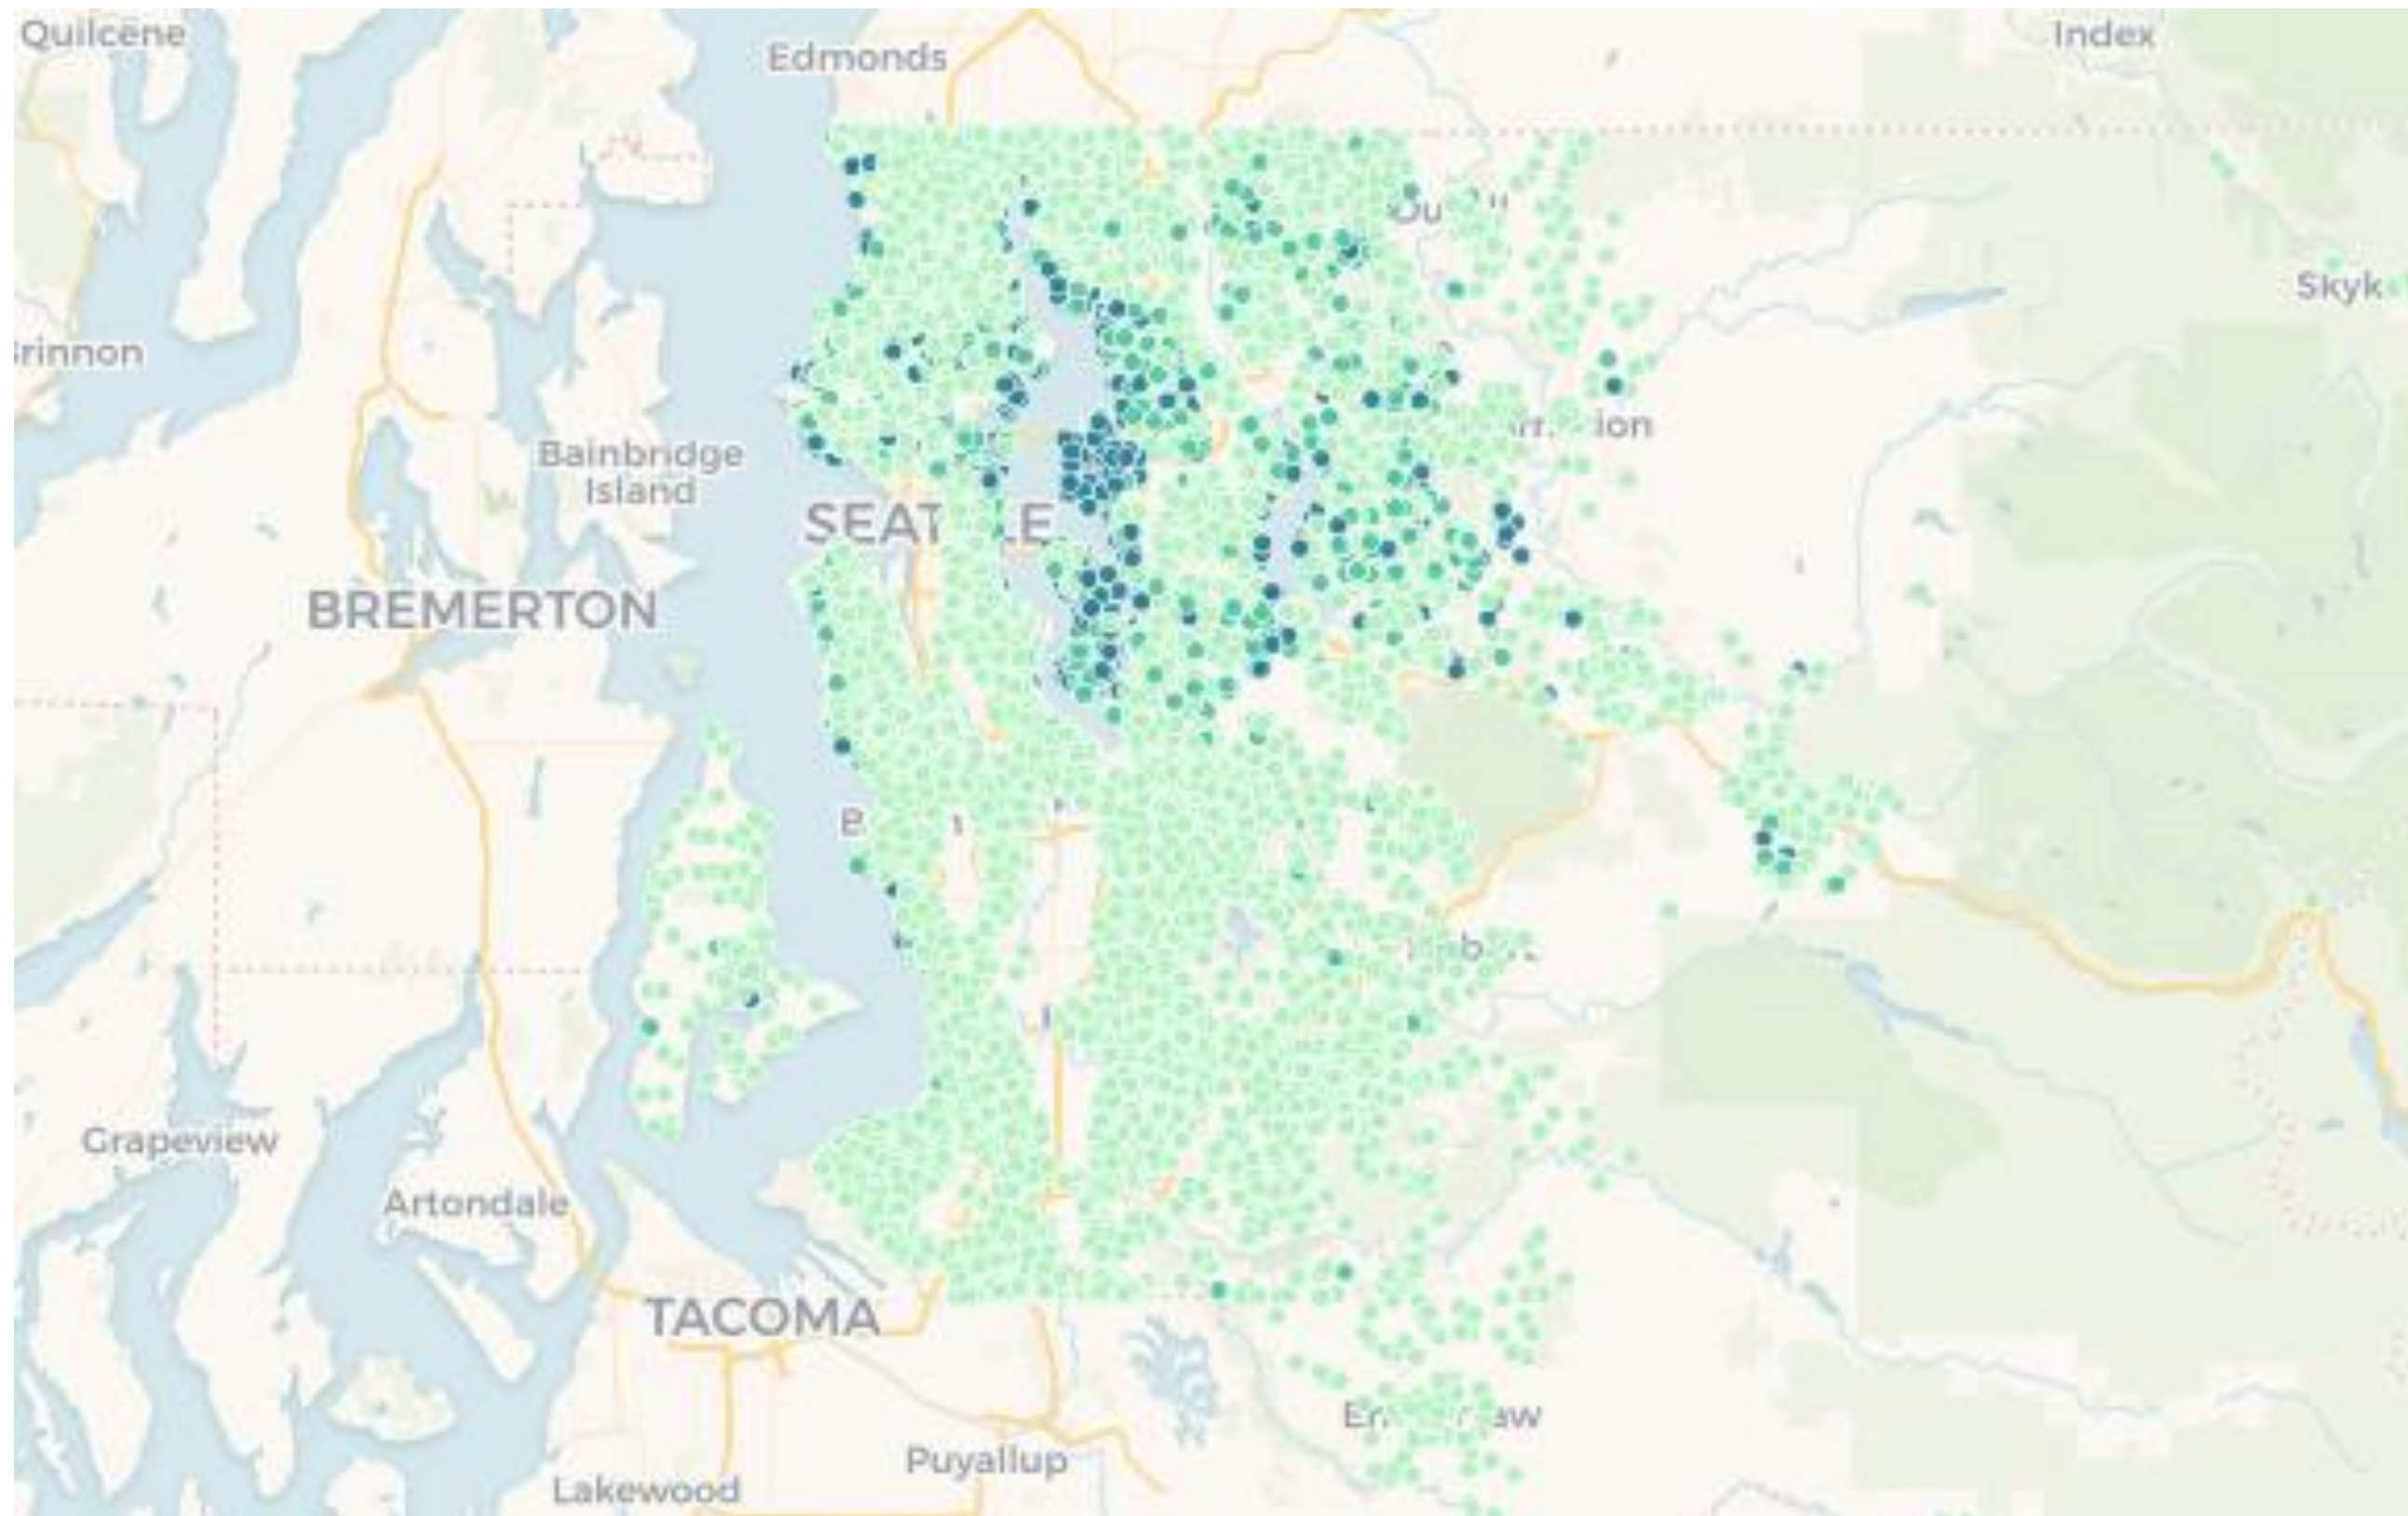

zipcode
latitude
longitude
waterfront
sq ft nearest neighbors

year built
year renovated
grade
condition

bedrooms
bathrooms
floors
sq feet (living, above, basement)
sq feet lot

waterfront
latitude

waterfront houses **75%** more expensive
moving **32 miles** north increases price **1.5%**

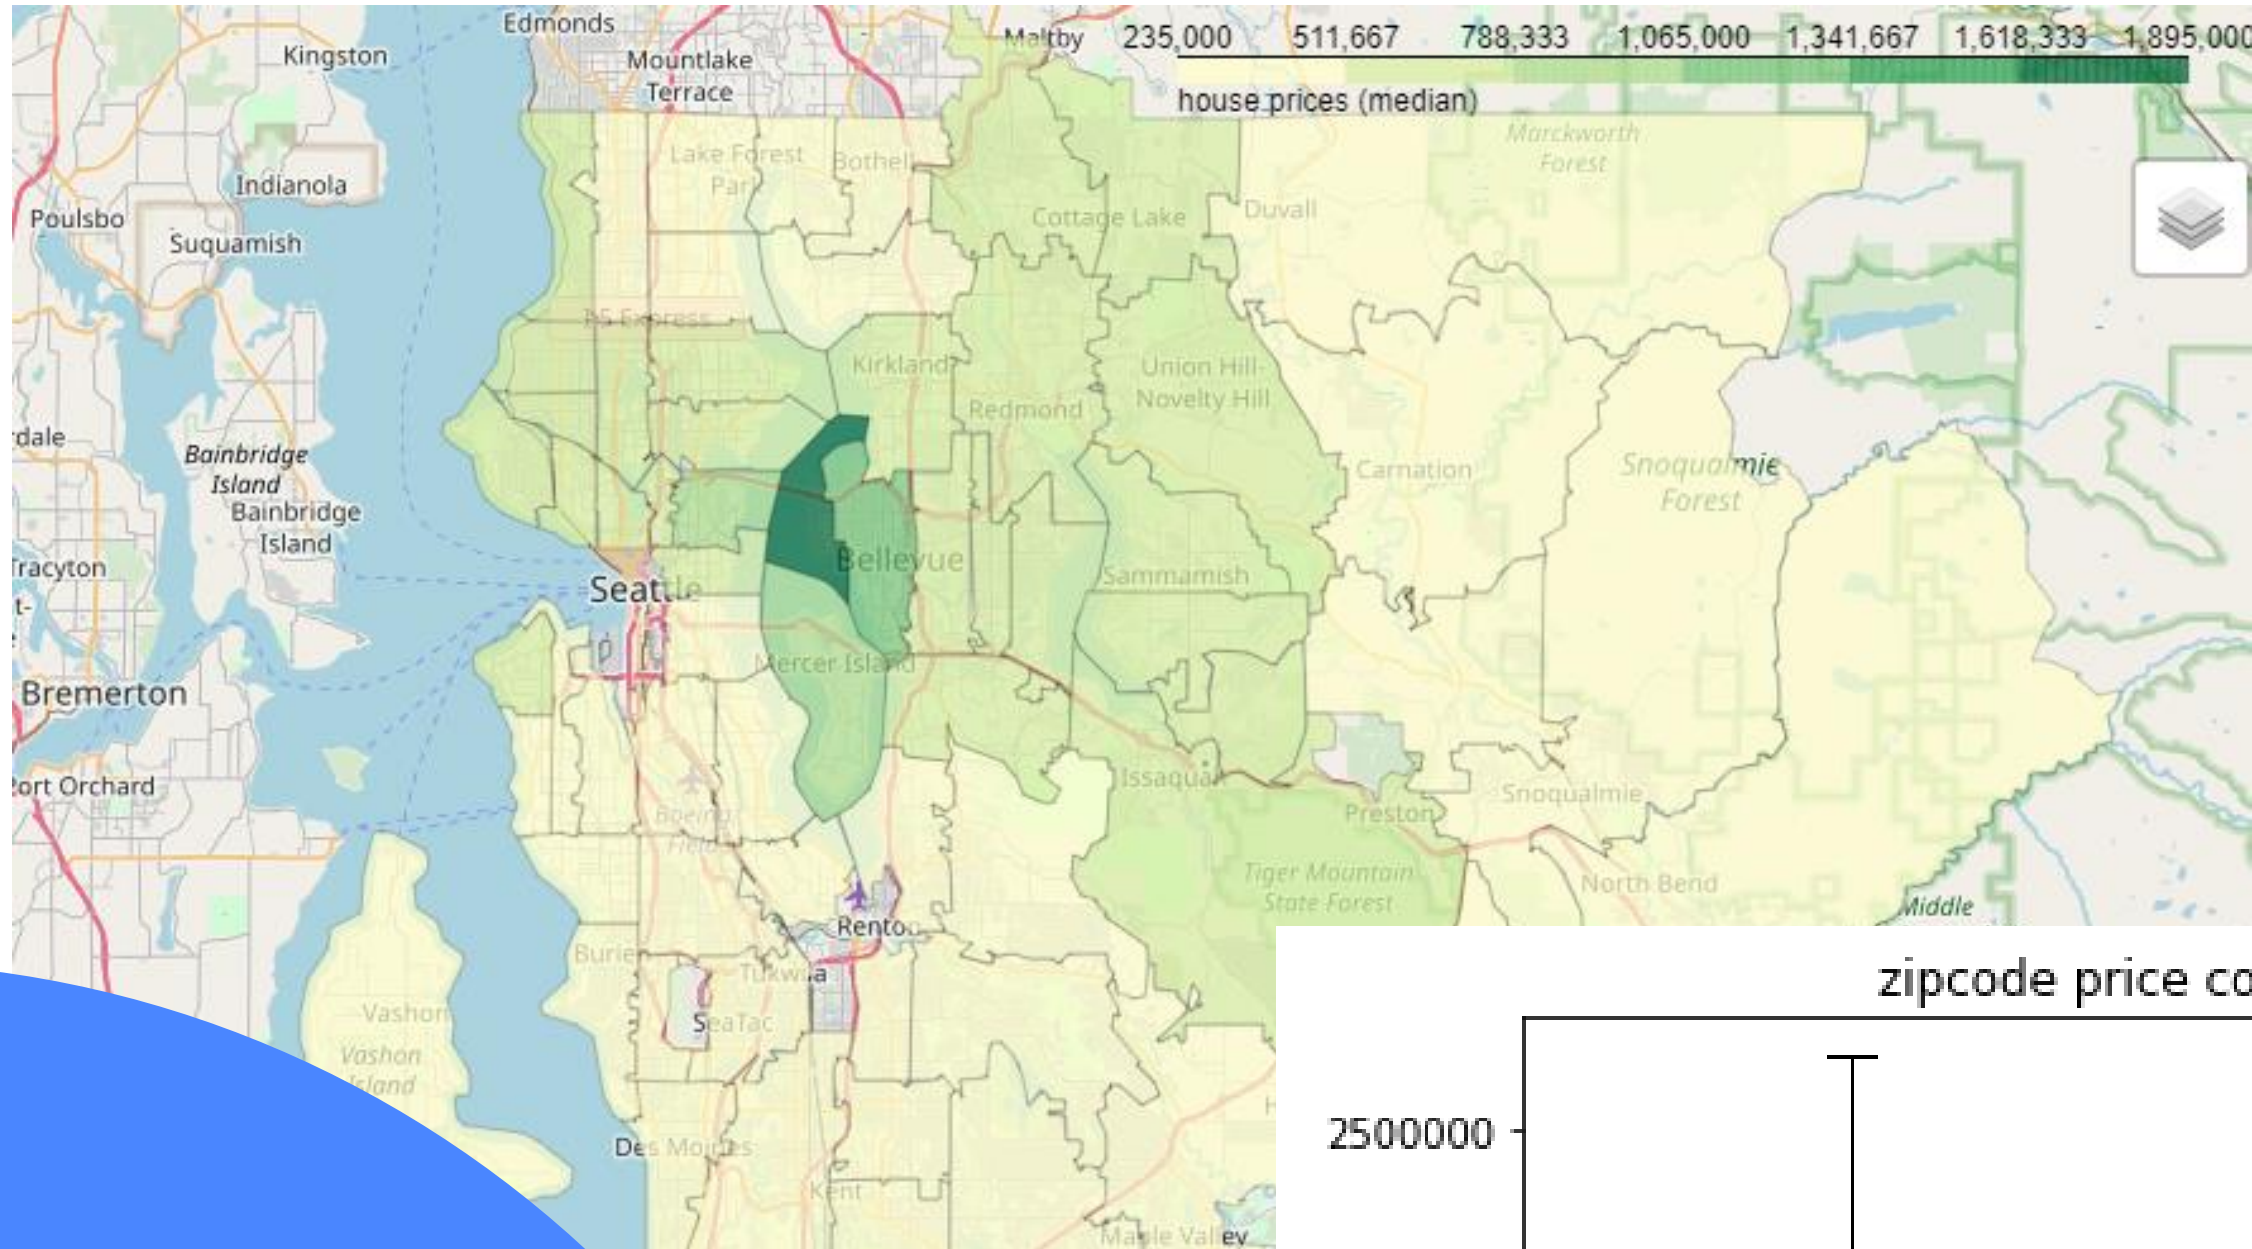

location

top
zipcodes

54% price increase

zipcode price comparison

Bellevue
Medina
Clyde Hill
Mercer
Island
East Seattle

location

condition

grade
condition

Grade can increase price up to 180%

1. Falls short of minimum building standards. Normally cabin or inferior structure.

...

13. Generally custom designed and built. Mansion level. Large amount of highest quality cabinet work, wood trim, marble, entry ways etc.

Condition 1 - 3 to 4/5 can increase price up to 12%

square
footage

1,000 sqft to 1,100 sqft:
15% price increase

features

However...
look at the **living** square footage!

final recommendations

waterfront – 75% up

top 4 zipcodes – 50% up

grade instead of condition – up to a 180%

living area instead of total square footage

「thank you.」
